DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:

Claims 1-25 are allowable because the prior art fails to disclose or suggest a method for recovering a correct phase and frequency for an analog video signal that is converted for display on a digital display comprising the steps of estimating an expected width of an image producible by the analog video signal, determining an actual width of an image producible by the digital video signal and adjusting the digital video signal until the actual width equals the expected width as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The 37 C.F.R. 1.31 declaration filed on 7/12/2002 under 37 CFR 1.131 is sufficient to overcome the Onagawa reference.
